NOTE FOR: General Counsel

Tony:

I have just learned that an old colleague--a San Francisco attorney by name of William Schwarzer--has been named a Federal judge in San Francisco. Schwarzer was one of the senior staff members of the Rockefeller Commission. He dug very deeply into CIA matters, particularly in the commercial, proprietary, and Watergate areas.

He thinks the world of CIA and its people. He is vitally interested, however, in insuring that it pays a due regard to propriety and legality. Thought you would be interested in this. I do not know exactly in which court he is a judge.

Dictated but not read.
